- **13.6 km long bypass around Chełm**
- **Construction time: 36 months**
- **Realisation as design & build project**

Vienna/Warsaw, 15 June 2021 STRABAG, the European construction technology group, is further consolidating its strong market position in Poland with a contract worth around € 99 million. The General Directorate for National Roads and Motorways (GDDKiA) has awarded the construction of the 13.6 km Chełm bypass road S12 east of Lublin near the border with Ukraine to STRABAG's Polish subsidiary STRABAG Sp. z o.o. The construction work is expected to take around 36 months.

"In terms of output volume, Poland is our third strongest country after the core markets of Germany and Austria, and I am pleased that this successful path will continue in 2021 thanks to new contracts like this one," explains Thomas Birtel, CEO of STRABAG SE.

The bypass will be realised as a design-and-build project comprising two carriageways, each with two lanes, as well as four on- and off-ramps and 16 civil engineering structures, including bridges over the Uherka River and the Chełm–Włodawa railroad line, over a length of 13.6 km. The works also include the construction of a highway service station, local service roads as well as environmental protection and road safety facilities along the entire route.

220 km of express- and motorways under construction in Poland

At the beginning of April, STRABAG had also been contracted to build an 18.75 km section of the A2 motorway between Siedlce Zachód and Malinowiec. In total, the company is currently involved in the construction of 14 expressway and motorway sections in Poland with a total length of more than 220 km.

STRABAG SE is a European-based technology partner for construction services, a leader in innovation and financial strength. Our services span all areas of the construction industry and cover the entire construction value chain. We create added value for our clients by our specialised entities integrating the most diverse services and assuming responsibility for them. We bring together people, materials and machinery at the right place and at the right time in order to realise even complex construction projects – on schedule, of the highest quality and at the best price. The hard work and dedication of our more than 75,000 employees allow us to generate

an annual output volume of around € 16 billion. At the same time, a dense network of numerous subsidiaries in many European countries and on other continents is helping to expand our area of operation far beyond the borders of Austria and Germany. More information is available at www.strabag.com.

*The STRABAG Group has been present in **Poland** since 1987. The company employs approximately 6,500 people and generates an output volume about € 1.1 billion in the country. More information is available at www.strabag.pl.*
